Decision-making Rules:

- 1 At least 3 members of the Local Citizens Board must contribute their Budget Units to fund a solution.
- 2 Report the decision together with required Budget Units to the moderator

Group attitude:

SUPPORTING

NEUTRAL

AGAINST

Additional Mechanisms:

ACTIONS

Solutions lower the FLOOD DAMAGE RISK. Some solutions will lower the risk throughout the whole valley, and others will lower the risk for only one elevation each. You can choose to fund the same solution on few levels. Some actions are activated only with other action.

WELLBEING ACTIONS

There are 4 special wellbeing solutions which raise the wellbeing of all families belonging to a certain group.

FLOOD

After each negotiation, round moderator will announce the magnitude of the flood. You cannot predict the outcome of the flood. If a family's flood damage risk is higher than the level of a flood, the difference will be deducted from family's Wellbeing.
