

Gifts of Culture 1.1.5. EN

Social feedback mechanism

*This is additional mechanism for the Gifts of Culture 1.1.5.EN. You can play the game without it, but it can give you some interesting insight and topics for the debriefing part of the game.

Some of the groups have a clear positive or negative attitude toward specific actions. When someone from the Local Citizen Board funds the action it might result in a negative reaction from the community. The wrath of the group will focus on the group's representative, regardless of his or her involvement in funding the action. The **SF**: Give the Social Feedback card in Results of the round. The **SF**: First check for inclusion actions. If no inclusion actions, give the Social Feedback card in Results of the round.
